

# EASYTOUCH<sup>®</sup> PNP

## POOL & SPA CONTROL SYSTEM

AFFORDABLE, SIMPLE & EASY... OF COURSE.

The EasyTouch<sup>®</sup> Control System eliminates the inconvenience of trips to your pool equipment pad. With push-button operation and clear, intuitive instructions and displays, your EasyTouch<sup>®</sup> system eliminates memorising operating sequences, manually turning valves and resetting time clocks.

## WHO SAYS POOL AUTOMATION HAS TO BE COSTLY & COMPLICATED?

Scheduling and controlling the operation of pool and spa equipment and related poolscape accessories is now blissfully automatic, simple and affordable. EasyTouch® Pool and Spa Control Systems eliminate the inconvenience of repeated trips to the equipment pad, memorising operating sequences, opening and closing valves and resetting time clocks and thermostats.

What's more, EasyTouch® systems set the standard for operating simplicity with push-button operation and clear, intuitive instructions and displays. Your EasyTouch® system includes all circuitry and fully programmable controls in a single Power Centre installed near your pool or spa equipment. This avoids expensive wiring and installation costs to make an EasyTouch® system affordable for any budget.

## THE ULTIMATE CONVENIENCE IN POOLSIDE CONTROL

Add an optional ScreenLogic® Interface Kit to your EasyTouch® system and you can control everything from pool and spa temperatures, to jets, lighting, water features and more right from your favourite mobile digital device. Access your pool from practically anywhere and at anytime using your smartphone, tablet, computer or voice control with Amazon Alexa™. Whether you're across the deck or around the globe, pool control has never been this easy.

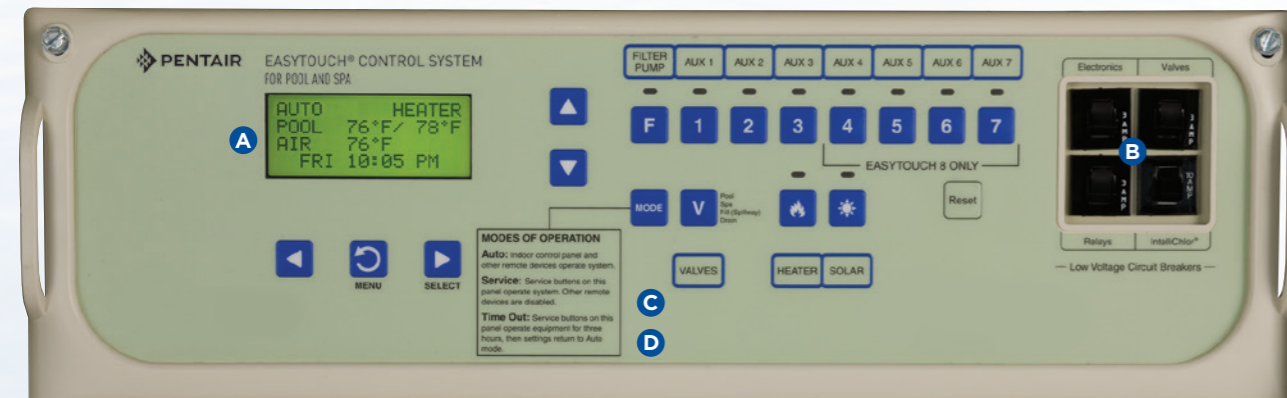

Total control, anywhere, anytime, using your computer or mobile digital device.

## SIMPLER INSTALLATION WITH PLUG 'N' PLAY POWER

In an industry first, for a controller of this capability, the EasyTouch's plug-n-play electrical outlets allow the user to connect, disconnect and change equipment with ease. This eliminates the need for an electrician to install external GPO's near the pool equipment, saving you money on what could otherwise be a costly installation\*. All built in outlets are clearly marked and come with a weather proof and dust proof cover to keep your equipment safe and protect from costly repairs.

\*An electrician is required for installation of the EasyTouch® power centre. (bottom view of the control panel unit)

**A** LCD DISPLAY INFORMS AND INSTRUCTS EVERY STEP OF THE WAY.

**B** RESETTABLE CIRCUIT BREAKERS ARE READILY ACCESSIBLE BY YOU OR SERVICE PROFESSIONALS FROM OUTSIDE YOUR HOME.

**C** SERVICE MODE AIDS IN SYSTEM TESTING AND TROUBLESHOOTING - NO NEED FOR SERVICE PERSONNEL TO ENTER YOUR HOME.

**D** TIME OUT MODE ALLOWS PROGRAMS TO BE TEMPORARILY INTERRUPTED BEFORE AUTOMATICALLY RESUMING SEVERAL HOURS LATER - NO NEED TO REPROGRAM.

## EASY TO INSTALL, EASY TO MANAGE

EasyTouch® systems are available for a separate spa, a separate pool, or a pool/spa combination with shared equipment. You select from systems that control four or eight accessory functions. The EasyTouch® PNP 5 is a five outlet system, with 4 relay controlled outlets and one permanent power outlet, typically used to control pool and/or spa operation plus pool or spa lights and heaters. The EasyTouch® PNP 10 is a ten outlet system, with eight relay controlled outlets and two permanent power outlets, allowing separate scheduling for additional features, such as landscape lighting, waterfalls, fountains, additional heaters and more. Take the work and worry out of scheduling and operating pool and spa heating, filtration and cleaning cycles.

For even greater convenience, you can add any of these optional controllers:

- All functions controlled with easy, one-button access from the Power Centre.
- A variety of optional, simple-to-use remote, wired or wireless controllers for added convenience.
- Full programmability of everyday equipment operation for optimum efficiency. Re-program for variable pool/spa usage patterns or when adding or changing equipment to maintain peak efficiency.
- Onboard diagnostics make service simple. Built-in, self-test diagnostics give you the ability to verify correct operation of specific functions, and a diagnostic screen reports failures for troubleshooting and repair.
- For the ultimate in pool chemical management, pair the IntelliChlor™ generator with an IntelliChem® Chemical Controller. When combined, these two products deliver the precise amount of chemicals to keep pool water clean, clear, safer and in perfect balance...automatically.

INTELLICHEM®

## INTELLICHLOR™ SALT CHLORINE GENERATOR

EasyTouch® Control Systems are now available with built-in IntelliChlor™ power. The IntelliChlor™ is the most technologically advanced salt chlorine generator you can buy. The IntelliChlor™ salt chlorinator uses common table salt to produce all the chlorine your pool needs. What's more, by adding an IntelliChlor™ salt chlorinator to your EasyTouch® system, you'll automate the sanitisation job for a much lower investment.

Key features and advantages of the IntelliChlor™ salt chlorinator include:

- IntelliChlor™ cleans itself with an automatic reverse-cycling feature that helps prevent scale build-up for longer cell life.
- Easily manage chlorine addition using your EasyTouch® system controller and automatically adjust chlorine output between pool and spa modes.
- All performance data is visually displayed on cell via LED lights, making it easy to maintain perfect water.
- Integrated sensors ensure water flow is adequate for safer chlorine generation. Under low water temperature conditions, automatic shut-off feature protects the unit and prolongs cell life.

## AN ECO SELECT® BRAND PRODUCT

Pentair control systems can optimise energy use and equipment performance by automating and synchronising equipment scheduling. They prevent problems and waste so you don't have to rely on your memory or limited time clocks to operate or turn off equipment.

As the global leader in pool and spa equipment manufacturing, we strive to provide greener choices for our customers. We hope you'll join us in embracing more eco-friendly poolscape by choosing Eco Select® brand products for your swimming pool.

Smart, Sustainable Water Solutions.
