

STA-RITE®

CRISTALFLO II

SAND FILTER

THE SOLUTION FOR CRYSTAL CLEAR WATER

You won't burn many calories maintaining the Sta-Rite® CristalFlo II sand filter. A small turn on the control valve puts the CristalFlo II filter to work cleaning itself. And this is one workout routine you won't have to do very often.

Through innovative engineering, the filter's dirt-handling capacity is maximised, which extends the time between cleanings (backwashing). But best of all, the CristalFlo II filter promises to make your pool water sparkle in the sun and shimmer in the moonlight.

Key Features

- Filter body manufactured of chemical-resistant, weather resistant, UV resistant, inalterable plastic.
- 6-Way Multi-port valve.
- Start/Clean pressure gauge dial for clear indication of backwash requirement.
- Pre-assembled collector in tank, ready to go.
- Perforated collector hub for high flow rates.
- Spigot-located collector to ensure balanced flow and efficient and reliable backwash.
- Easy to drain. No lost sand, thanks to a lateral and manual bleeder valve for water in the sand purge plug.
- 10 Year Pro-Rata Warranty*

6 Way Multiport Valve

'Collector On Hub' Design For High Flow

Start- Clean Pressure Gauge Dial

FILTER MODEL	FILTER AREA	MPV	SAND REQUIRED (KG)	ZEOLITE REQUIRED (KG)	GLASS REQUIRED (KG)		MAX FLOW	MIN BACKWASH
